Chief, Engineering Division/OC

25X1

Chief, Contract Branch/PD/OL

Contract No. XG-1050 with

25X1

1. The contractor has submitted the enclosed list of Government-owned tools which were acquired under Contract Nos. PSC-135 or XG-540 and used under the subject contract. Your review of this list and advice as to whether this is a complete and accurate list of Government property resulting from said contracts would be appreciated.
2. The Fiscal Division is holding several final payment vouchers under the subject contract pending accountability of Government-owned tools in possession of the contractor.
3. Settlement of the property phase of the subject contract may be accomplished by one of the following methods:
 - (a) Execution of a storage contract.
 - (b) Return of such property to the Government.
4. The undersigned does not recommend the use of a storage contract for these tools unless it is established that additional work with NEMS is contemplated in the near future. If, however, such work is contemplated, a requisition should be submitted to the Procurement Division for the preparation of a storage contract.
5. Should it be decided that said property is to be returned to the Agency, this office then recommends that the matter be coordinated with the Supply Division.
6. Inasmuch as the contract refers to specifications and drawings as well as tools, dies, and molds, and the contractor does not show such specifications and drawings in his list, your comment regarding this matter will be appreciated.
7. Your prompt reply is requested in order that the Contracting Officer may issue the appropriate instructions to the contractor and thereby release final payment.
